

Subject: Peace Region Proposed hunting regulation changes 2010/11

Hunters have an opportunity to review and provide input toward changes in the hunting regulations and access management areas for the Peace Region. Changes currently under consideration, if approved, will be effective and appear in the 2010-2011 Hunting and Trapping Regulations Synopsis. Your comments are welcomed and will be carefully considered as we finalize the regulations. Proposals for regulation changes result from requests by Rod and Gun Clubs, other non-government organizations, and the public at large. Others are developed by Ministry of Environment staff from technical studies of trends in wildlife populations and hunter use and success in the region. The document **Peace Region Wildlife Regulations Proposed Changes for Comment (2010-2011)** includes some background to assist you in understanding the rationale for each regulation change proposal.

Please follow the links below to review the proposed changes and submit comments:

http://wwwd.env.gov.bc.ca/peace/wld/proposed_changes.html

Email for submission of comments to: Peace.PermitLicences@gov.bc.ca; please use "Regulation Changes 2009/10" in the subject line

Conrad Thiessen, M.Sc.

Wildlife Biologist, Peace Region
